

WHY INTUITIVE SYSTEMS (IS)

- **By the industry, for the industry.**
- **Founder with over a decade's experience managing oil palm operations**, allowing IS to address the industry's specific needs.
- **Customisable** according to individual companies' requirements.

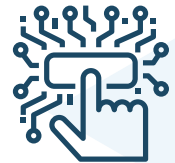

COMMON CHALLENGES FACED BY THE PALM OIL INDUSTRY

Insufficient checks and controls, coupled with manual processes lead to fraud

Lack of process automation across business units result in inefficiencies

No real-time data for quick & informed decision-making

Lack of enterprise level control over assets leads to cost overruns

Limited connectivity in remote locations

SOLUTION MAP
